Anika Singh Yaduvanshi

+91 9981992286 · anika.singh.yaduvanshi@gmail.com
Computer Science Major at NIT-Bhopal, India

OBJECTIVE

To seek a challenging role in a professional environment that allows me to utilise my innovative nature, strong work ethic and passion for continuous learning to make a positive impact and contribute to the success of the organisation.

KEY COMPETENCIES

Fluent in computer programming languages (C++, C)
In-depth knowledge of DSA & DBMS (MySQL)
Basic knowledge of HTML, JS, .NET, Java, Python
Strategic, creative and adaptable
Dynamic, proactive and a leader

EXPERIENCE

Software Engineer Intern at CoreCard Software Inc.   May 2024 - ongoing

Majorly, I am working on developing the latest release of the company's KMS (Key Management System), a project that handles encrypting key generation, controls key life cycles, handles encryption, decryption and client authentication alongside other features. While also learning the ins and outs of handling big data safely and risk management.
Technology: **C#, C++, HTML, JavaScript, .NET, SQL Server**

PERSONAL PROJECTS

Blood Donation Management System   Sept 2023 - Dec 2023

I constructed a comprehensive browser-based system designed to manage information concerned with blood banks, connecting medical, administrative and community personnel.
Technology: **Java, MySQL, CSS**

Stock Inventory Management   April 2022 - July 2022

Designed a ready to implement system to manage replenishable stock of restaurants, stores, and small-scale businesses.
Technology: **Python, MySQL**

POSITIONS OF RESPONSIBILITY

Executive at NGO Aaroha
Leading charity drives and student groups for the academic and overall benefit of underprivileged youth

Event Management Lead at **NIT Entrepreneurship Cell**
Organising and management-in-charge of events in and off campus

Content Creation Head at **Robotics Society**
Creating content for competition submissions and detailed reports of team robotics projects
